TRIAL HITTING YONEX

You can try out YONEX racquets in lessons. Please feel free to ask your coach.

Ryuji highly recommends "PERCEPT" ☺ .

Ryuji's recommendation for PERCEPT?

-PERCEPT has a feeling that you are hitting balls while grabbing, that makes you easy to control volleys!

Key points of PERCEPT 100 "D" which is Ryuji's favorite racquet?

97(racquet head size)was concerned about power and 100 was too big, 100D was the solution! The feeling of the ball flying, the sensation when volleying, and the ease of the ease of hitting serves were all great for me!

Christams present for your precious partner...?
