

Junior May Tennis Camp

Spring is here! As the weather warms and nature blooms, it's the perfect time to get your kids active and outdoors! This is why we are organizing a 4-day Junior May Tennis Camp from May 8th (Wed) to May 11th (Sat). The event will take place at AMVJ and the lunch is included. Are you interested in this event? - Send us an email to reserve the spot!

? Different Types of Tennis Shoes

In the world of tennis, surfaces matter. From grass to hard to clay courts, each offers a unique playing experience. To ensure safety and performance, it is crucial to wear the right type of shoes.

Clay court shoes require excellent grip due to the limited traction offered by clay surfaces. To enhance traction, these shoes are equipped with a complete herringbone outsole pattern (image below).

Clay court shoes

Hard court shoes need to be durable and provide cushion to handle the demands of a hard court surface.

We advise you to have one pair of shoes for outside (clay) and one pair of shoes for indoor courts(hard / carpet court).

Hard court shoes

Lessons In Germany

The lessons will continue to be held on a regular basis with the new May setting! Please let us know if you would like to sign up for a one-off private lesson as this will be a regular event. We look forward to seeing many of you on the court!
